

THREE STRONG LAYERS. ONE STRONG SYSTEM.

Triple-Layer Railing from TAMKO®

TAMKO®
BUILDING PRODUCTS
tam-rail.com

The TAM-RAIL® railing system by TAMKO® is a patented triple-layer railing system that offers incredible performance and protection. The system features thick walls, outstanding stiffness and superior rigidity—all in a product that is light in weight and low maintenance. Whether it's on the stairs, on the porch or on the deck, TAM-RAIL railing is sure to add a beautiful and durable finishing touch. Compare it to ordinary PVC railing products and see the difference for yourself.

STRENGTH

Strength and protection all in one.

- A patented triple-layer railing system
- Foamed composite core for added strength
- No metal insert reinforcement required

VERSATILITY

One railing system for a variety of applications.

- Innovative post mount kit
- Rail kits available with square or colonial balusters
- Multi-angle bracket kit designed for application in a variety of angles

CONVENIENCE

Quick, easy installation.

- Prepackaged railing for added convenience
- Weather resistant and low maintenance
- Comes with a 25-year limited warranty*

THE TAM-RAIL DIFFERENCE

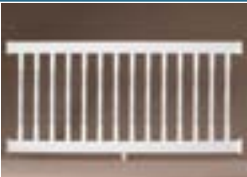

Made from durable cap stock, the outer layer provides not only a great look, but also additional protection. It is low maintenance and designed for weather resistance.

Providing excellent strength, the middle layer is an innovative composite wood and foam core that is formulated for stiffness.

Formulated for impact resistance, the interior layer provides a protective and sturdy base.

Building Code Approved: ICC ES Legacy Report 22-22**

TAM-RAIL® RAILING & ACCESSORIES

	Straight Rail Kit (6' and 8')	<p>TAM-RAIL straight railing kits in 36" and 42" rail height are ideal for a variety of applications. Each kit includes everything needed for quick and easy installation, including a top rail, a bottom rail, straight rail brackets, hardware, a crush block and balusters. 36" rail kits available in nominal 6' and 8' lengths with your choice of square or colonial balusters. 42" rail kits available in nominal 6' lengths with square balusters.</p>
	Stair Rail Kit (6' and 8')	<p>Designed for functionality; the TAM-RAIL stair rail kit is available in 36" and 42" rail height and is made from the same strong material as our TAM-RAIL railing products. The kit includes a top rail, a bottom rail, stair rail brackets, hardware and balusters. The 8' stair rail kit will also include a crush block. 36" rail kits available in nominal 6' and 8' lengths with your choice of square or colonial balusters. 42" rail kits available in nominal 6' lengths with square balusters.</p>
	Colonial Balusters	<p>Colonial balusters offer a unique way to add distinction in any application. The beveled curves give this option a classic feel that is complete with the patented triple-layer system.</p>
	Square Balusters	<p>Square balusters provide straight lines and create a uniform appearance. The square balusters are also made from the patented triple-layer system.</p>
	Post Mount Kit	<p>Providing a convenient surface mounting option, the post mount system includes a post sleeve, pyramid post cap, post ring, post mount and hardware. The post mount kit can be used in either wood or masonry applications.</p>
	Post Sleeves	<p>To enhance the look of our railing system, post sleeves are available to cover wooden 4x4 posts used in construction. The post sleeves are available in three sizes—38", 48" and 116"</p>
	Post Caps and Post Ring	<p>Our post caps and New England style post ring provide the perfect finishing touches. Post caps are available in three styles: New England cap, ball cap or pyramid cap.</p>
	Straight Rail Bracket Kit	<p>Designed for use with standard 6' or 8' railing, the straight rail bracket kit includes two straight top and bottom rail brackets and hardware.</p>
	Stair Rail Bracket Kit	<p>Our stair rail bracket kit accommodates stairs with a 30° to 32° angle of slope. Each bracket kit includes an upper and lower top stair rail bracket, two reversible bottom stair rail brackets and hardware.</p>
	Multi-Angle Bracket Kit	<p>Multi-angle brackets can be used for 22.5° and 45° horizontal angle applications and also for extended stair slope applications that range from 33° to 38°. The kit includes a multi-angle top and bottom rail bracket and hardware.</p>

BUILDING PRODUCTS FOR THE PROFESSIONAL

Since 1944, professionals and homeowners have looked to TAMKO® for quality products that are built to perform. In addition to Tam-Rail® railing, TAMKO offers a complete line of residential products: EverGrain® and Elements® composite decking and railing, Lamarite® composite shingles, MetalWorks® steel shingles, Heritage® Series laminated shingles, 3-tab asphalt shingles, waterproofing materials, ventilation products and asbestos-free cements and coatings. Each of these products delivers TAMKO quality, performance and durability.

COMPOSITE DECKING

EverGrain and Elements composite decking by TAMKO provide a variety of colors, styles and attractive options. EverGrain offers a natural wood look with a deep lasting grain. Elements extruded decking is available with a natural wood grain look. No matter the look, our products provide low maintenance composite decking with lasting beauty.

COMPOSITE RAILING

From traditional to designer, EverGrain railing systems offer even more ways to add distinction to your deck. Our railing lines are made from the same robust composite material as our composite decking, providing true-to-life beauty. And since the railing systems are available in a variety of colors, you're sure to find the perfect look.
